# INTRODUCING THE K9 LED FLOOD LIGHT

Versatile

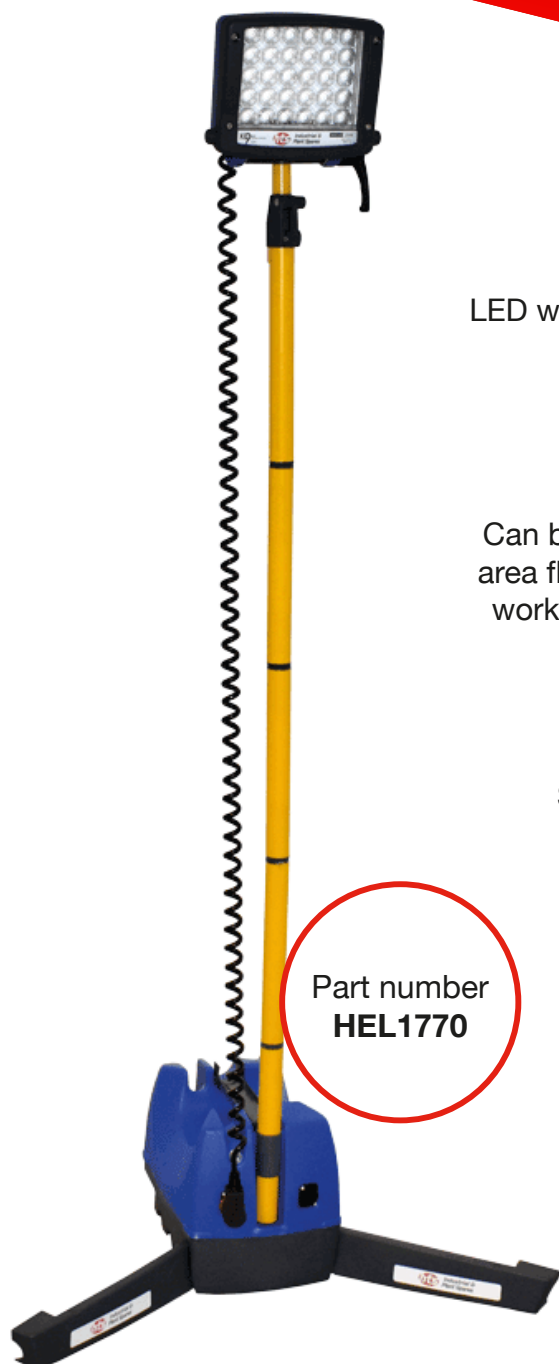

Portable

Lightweight

Compact

Easy to use

Extremely powerful

Part number  
**HEL1770**

LED worklight system designed for patrol, inspection and emergency work situations. Ideal for construction sites and plant yards.

Offers both flood and spot beam angles and anything in between making it ideal for all applications.

Can be used as a handheld work light or extended up to 1.8m as an area floodlight. Compact size and weight makes it perfect for mobile working environments where powerful, long lasting light is required.

It also doubles up as a self supporting tripod light making it ideal for on-site work.

Supplied with a mains charger or can be fitted with an optional in-built charging system to allow full automatic charging from a 12 or 24 volt vehicle increasing flexibility and applications.

One battery charge will give between 8 hours use at 100% light output to 110 hours use at 8% output.

**Maximum light output:** 6,600 lumens

**Brightness Levels / Duration:** 8% – Approx 110 hours

25% – Approx 33 hours

50% – Approx 16 hours

75% – Approx 11 hours

100% – Approx 8 hours

125% – Approx 6 hours

**Weight (Including extension poles):** 11.8Kg

**Dimensions (L x W x H):** 390mm x 195mm x 255mm
