

NEW

HYDRAULIC CYLINDER RAM REPAIR & REBUILD SERVICE

Introducing our brand new hydraulic cylinder ram repair service*

- Super fast turnaround time
- Damage inspection
- Re-seal service
- Re-rodging
- Complete rebuild service
- Collection and return to you

HTS has been successfully supplying parts & consumables to the construction machinery sector for over 30 years and our reputation for great service precedes us!

The addition of engineering services means we can now offer **Hydraulic Cylinder Ram servicing & repairs**, adding another dimension to our existing offering.

All types of cylinder rams can be **collected, inspected, quoted and repaired** to full functionality. They are returned **fully cleaned and repainted** (if required) in the shortest timescale, keeping machine downtime to a minimum.

Simply contact our team on 01432 373350 or email sales@htsspares.com and we'll sort the rest!

*Currently available in the South East only.
